Wage Subsidy Programs – Other

Alberta Job Corps (AJC) — The Alberta Job Corps program provides structured, supportive training and work experience for individuals at least 18 years of age who have a sporadic employment history. The program gives participants the opportunity to work and earn a wage while learning reliable employment skills. Participants are hired by the Ministry and are paid minimum wage plus employer contributions.

They work on projects for their local communities and non-profit organizations. The Alberta Job Corps program is designed to work in cooperation with employers, training providers, aboriginal groups, community organizations and schools.

Wage Subsidy Programs

The AJC program is currently operating in northern Alberta, Calgary, Edmonton and Medicine Hat. Contact your nearest Alberta Works Centre or call the Career Information Hotline for more details.

GOVERNMENT OF ALBERTA

Electricity Human Resources Canada — Canada's Student Work Placement Program for the electricity industry. Aimed at preparing students for the future of work, the program will create 1000 new work-integrated learning (WIL) opportunities in electricity over three years, providing subsidies of up to \$7,000 per student position to employers who create new WIL opportunities. Eligibility:

Primary activity is the generation, transmission and distribution of electrical power.

Sector support including renewables in any of the following areas: R&D, business development, energy efficient. Firms engaged in manufacturing and the provision of services necessary to the generation.

Summer Temporary Employment Program (STEP) — Eligible organizations can apply for a wage subsidy to hire high or post-secondary students into summer jobs from May to August. Summer positions created through STEP provide students with the opportunity to build meaningful work experience, increase their skills, gain work experience, increase their skills, gain workplace insight and help prepare them for the future.

GOVERNMENT OF ALBERTA

Youth Employment Strategy — Government of Canada's commitment to help young Canadians (aged 15 to 30) obtain career information, develop skills, find good jobs and stay employed. Through federal departments and agencies, among others, the Youth Employment Strategy assists employers in hiring young Canadians. The NRC Industrial Research Assistance Program (IRAP) delivers its Youth programs under the Youth Employment Strategy and provides small and medium-sized enterprises (SMEs) with financial assistance to hire young talent. In addition to meeting the needs of innovative SMEs, this Program facilitates the transition of highly skilled young people to a rapidly changing labor market.

GOVERNMENT OF CANADA

ITCT Career Connect — If you are planning to hire an unemployed or underemployed post-secondary graduate for a full-time Information and Communications Technology position (minimum three-month term) then this program is for you! Career Connect will subsidize half the eligible participant's salary up to \$ 14K. Career Connect will help employers hire eligible unemployed or underemployed graduates that will bring passion, energy, and skills to your company – In return you will be providing them with valuable industry experience. The hope of the program is that you will hire the youth in a full-time role at the end of program.
