

BLAKE FOX

ELECTRICIAN INTERN

"I never knew what I wanted to do in high school, but the Registered Apprenticeship Program has helped me and encouraged me to take on opportunities. What I do know now, is that I am going to get my journeyman electrician license."

"My advice: if you're a high school student and you don't know exactly what you want to do, that's ok - neither did I. There is nothing to lose if you take on an experience with CAREERS and RAP. Take an opportunity as soon as you can and take it on to the fullest. My internship has helped me connect with many people through networking. Meeting great people and organizations opens doors to opportunities."

"My experience with RAP has helped me to get a head start on my career. RAP has initiated my passion for my position as an apprentice electrician and I am now in my second year."
