

HUNTER PRATT

COMMUNICATIONS INTERN

“Thank you for teaching me new skills that are useful for my future! Thank you to my high school for the opportunity to join CAREERS and finally thank you to CAREERS for helping me see a future I want!”

“I was a communications intern and I wrote blog articles and scripts that I used to film TikToks. I wanted to pursue an internship through CAREERS because I have heard from other students who have gone through it and they had learned a lot. A great thing about CAREERS is that they do the best they can to place you where you want to be. My advice for those who are interested in getting started in an internship is: be prepared to work hard and have lots of fun!”

(Hunter graduated from Bill Woodward School and is now at Mount Royal College taking Communications.)
