

# KATIE SLOAN

## CARPENTER INTERN

*“This internship really pushed me to go further with a career out of high school. It has pushed me to go towards university and go through with the four-year program to get my ticket.”*

*“It’s just a really great environment to learn and make mistakes. If you don’t end up liking a particular trade you can switch it and go try a different one, or just try a new career path. I just think you should give it a try.”*
