

# PAIGE BRAKE

## IYCP INTERN

*"I couldn't be more grateful for the opportunity that I was given, and I wouldn't change it for anything else. Anika was a great support system for me during the application process and the entire summer. So, if you were given a chance to ever have an opportunity with CAREERS - jump into that full force because you might make some the most memorable moments in your life there."*

*"My summer was spent working as an assistant at the Friendship Center. It was one of my best experiences in the field I've always aspired to work in, which is of course working with children. Children are my greatest passion. It was so wonderful to be given the opportunity to work with CAREERS to get this internship. If it wasn't for CAREERS, I would not have found such a memorable place. During the summer camp, I was able to learn so much about the indigenous culture from such a friendly group of people. Even though I made mistakes along the way, I was always corrected in a kind way, letting me know that making mistakes is okay. I was always learning about something new from someone who was always available to teach me, after I made a mistake. I faced several challenges, one of which was my speaking skills. I had to constantly talk with different types of people every day and I've always been nervous when it came to being in public speaking. Once I got more into my work and understood what I need to get across to not only the people but as well as new children it made me more confident to my public speaking skills."*
