

# JOSH LEFEBVRE

## U21 INTERN

*“Over the span of my apprenticeship I was determined and took pride in my career choice, I had a clear vision and focus. I worked hard physically and academically which allowed me amazing opportunities to work on some of the biggest monumental projects”*

*“After graduating high school, learned about CAREERS which I wish I would have known sooner. A great pathway from education to the workforce. Through CAREERS I was introduced to Local 488 where I gained lots of experience and was introduced to a lot of other skilled trade workers. Local 488 covered my additional training courses which are needed when working on job sites. I believe in being rewarded for superior effort and hard work and in the process this why I am where I am today. I would strongly encourage any person who is interested in a skilled trade to reach out to CAREERS.*

CAREERS
