## SKILLED TRADES INTERN

*“Look out for opportunities. Just because you are a woman doesn’t mean you can’t do a man’s job.”*

*“Ever since I was in grade 8 I started thinking about it because before that I didn’t care too much about what I was going to do after high school. At first I was not doing so well in school but then I figured out that I could go into the trades and now I’m doing so well. For my future I believe I’m going to finish high school and be a welder. I want to get my underwater welding ticket.”*
