

SIENNA RAY

SKILLED TRADES INTERN

“Being able to get work experience and school credits at the same time is a great opportunity for all students and I would definitely do this summer internship again”

“My internship was great experience! I got the chance to learn and do amazing things with the Interfaith Food Bank and meet many great people. CAREERS helped me get this job and it has shown me that food banks impact our community so much. I realized that I really enjoy being able to help the community. Maybe in the future, I will also work at a job that helps people. Being able to get work experience and school credits at the same time is a great opportunity for all students and I would definitely do this summer internship again. To other students looking at an internship, it is an amazing opportunity that you will love doing.”
