

# JORDAN MASER

## CARPENTRY INTERN

*"All of the hands on skills I gained have transferred over to my career. One day, I will own my own home and it is nice to know I will be able to do everything by myself."*

*"Being placed in an internship has definitely had a positive impact on where I decided to go with my career - I have had the opportunity to try out a number of different trades. Even though I chose carpentry, I have insight into what everyone is doing. I would recommend doing an internship to anyone still unsure about their future because it offers the opportunity to learn and grow."*
