

ISABELLA CERON

ICT INTERN

"It helped me figure out a career in helping people. My dream job is to be a pharmacist, so I really believe that helping people is common between the Foodbank and pharmacy."

"My internship at Interfaith Food Bank was very successful, I got the chance to meet new people and work many different roles within the foodbank, such as client services, admin, cooking, ICT work and warehouse work. I learned how to work and communicate with volunteers, customer service and admin experience, and work together with coworkers. This job has really helped me gain useful experience that I can use in the future. I would highly recommend CAREERS to other students looking for an internship, it pays well and there are many different positions students can do. I would definitely do an internship again with CAREERS."
